

Facilities Committee Meeting
Tuesday, February 12, 2013

7:30 am – Wing Farm Conference Room B

Present: Bill Perkins, Alan Walton, Deb Keller, Sue Levine, Patrick Manuel

A draft report done by Harriman Architects and Engineers of four elementary schools in Bath, Phippsburg and West Bath was shared. The goal of this study is to provide an assessment of each of the schools, including the condition of the physical facilities and configuration of student population. The committee felt we needed to get back in touch with Harriman to ask some follow-up questions about the report.

It was suggested that the committee examine student population over the next 5-10 years. The committee also felt it was important for us to have more information about the capacity of Bath Middle School and Woolwich.

The condition of Morse High School was discussed again. The district will be exploring having an outside firm conduct a brief evaluation of Morse to better understand the facility needs.

Next meeting date: Tuesday, March 12th
