ABOUT US

The Theater Project was founded in 1971 as a non-
profit community-based theater in Brunswick,
Maine. For over 43 years we have provided
innovative, entertaining performances, designed
programming for members of our community with
special needs, and taught theater to thousands of
children from Maine to the Middle East and beyond.

The Theater Project is committed to offering the
community stimulating performances that encourage
audiences and participants to think and feel; to laugh
and cry. We are equally committed to an educational
program that enables participants to take risks, to
discover their creative spirit while problem solving
and working together, and to take responsibility for
what they accomplish.

Our main goal as educators is to introduce basic
acting techniques, but more importantly to express
and explain the significance of working together as a
group. We want to demonstrate that everyone is
important to making a show or a class a success. For
us, it's not about the product, it's about the process.
Using well-known books as a vehicle to introduce
theater games and exercises, each class will come up
with their interpretation of the stories.
